

# The Little Things

## VenueConnection

There is nothing better than soaking up the sun  
Chilling out with a glass of wine  
Or gliding down a slope of freshly fallen snow  
Feeling like a feather flying, as the wind blows

I love to play some chords to make you smile  
I love to sing my way these lines  
These little things make me feel fine  
They make my life shine

Little things, little things

Walking the streets of my town  
Calling a friend when Iâ€™m down  
Playing the sounds of Motown  
Until I reach the highest ground

Planning a trip to a far place  
Reading the press in the caf    
Feeling the groove of a funky bass  
I find the beauty of the little things

Time slips away like a high speed train  
It really makes sense to enjoy your days  
Time goes on, seasons change  
But I donâ€™t care whatâ€™s coming next

The things that make me feel fine  
Donâ€™t mean a thing but a good time  
Little things that keep me alive, in peace of mind  
The things that make my life shine  
Donâ€™t cost a thing but they are a must  
Little things I guess are bigger than they seem
