

# Shoebox

## Shitbird

I kept your picture in my shoebox  
I kept your picture in my shoebox  
I kept your picture in my shoebox  
    Right now is all we need  
    'Cause this feels pretty good  
    And I would stop the world  
    Just to give us more time  
    I kept your photograph  
    And sometimes I take a look  
    Do you think I should  
    Are you gonna leave  
    Is she a better girl  
    And does she know about me  
Hey you, I think you're going in the wrong direction  
    Hey you, I could be everything you want  
And it's true you must have been something special to me  
'Cause after all this time I kept your picture in my shoebox  
    Tonight was you and me  
    And it felt pretty good  
    Just like we stopped the world  
    For a minute in time  
    And then you made me laugh  
    About all the things we did  
    Do you think we should  
    Did you have to leave  
    And the other girl  
    Does she know about me  
Hey you, I think you're going in the wrong direction  
    Hey you, I could be everything you want  
And it's true you must have been something special to me  
'Cause after all this time I kept your picture in my shoebox  
    I hear you talk but your mouth is closed  
    You say the words and let me know  
    I can't speak I'm petrified  
    Wanna tell you what I feel inside  
    I kept your picture in my shoebox  
    I kept your picture in my shoebox  
Hey you, I think you're going in the wrong direction  
    Hey you, I could be everything you want

And it's true you must have been something special to me  
'Cause after all this time I kept your picture in my shoebox

I think you're going in the wrong direction

I could be everything you want

And it's true you must have been something special to me  
'Cause after all this time I kept your picture in my shoebox
