

Up All Night

Take That

Sometimes I see your face, looking at me
All your love and grace, smiling at me
All the things we had, but never understood
At times it cuts me up, thinking of you
All the hope I've got, wasted on you
All the talks we had, never did no good
Oh maybe, I don't need you to save me
I just want you to help me
'Cause you're keeping me up all night
I'm so tired of waiting
Waiting here for nothing
I should be up all night with you
Pour another glass
While I watch the bottle disappear
While I watch the morning light appear
Thinking about you
Oh maybe, I don't need you to save me
I just want you to help me
'Cause you're keeping me up all night
I'm so tired of waiting
Waiting here for nothing
I should be up all night
Oh maybe, I don't need you to save me
I just want you to help me
'Cause you're keeping me up all night
I'm so tired of waiting
Waiting here for nothing
I should be up all night with you
I met this girl last night and she said
Why won't you marry me?
He met this girl last night and she said
Why won't you marry me?
But I'm too young for that, too dumb for that
Too broke for that, too tired for that
Too proud for that and I'm too gone for that
But would you like to come by to my flat?
Oh maybe, I don't need you to save me
I just want you to help me
'Cause you're keeping me up all night

I'm so tired of waiting
Waiting here for nothing
I should be up all night
Oh maybe, I don't need you to save me
I just want you to help me
'Cause you're keeping me up all night
I'm so tired of waiting
Waiting here for nothing
I should be up all night with you
And c'mon you [Incomprehensible]
