

Aquaman

WALK THE MOON

Real life love, is under the mirror of the surface
so cut my cord, I wanna know how deep we can take it
see the thing you've been chasin honey, you'll never find it wearin' a life vest
you gotta risk your neck, but know in your heart it will be worth it So here we go, head first with no regrets
and no rules, we can stay as long as we want
slow dancin' in the darkness
all i know is i wanna be here with you from now on it's been my fashion, to keep my head dry and keep my feet
wet
step by step I'm letting you lead me towards the deep end
well I learned my lesson honey, just when you think you're all adult swim
it's precisely when, when somebody shows you to the ocean So here we go, head first with no regrets
and no rules, we can stay as long as we want
slow dancin' in the darkness
all I know is I wanna be here with you from now on just keep holdin on, holdin on to me
under, under the troubled surface of the sea
just keep, keep holdin on, holdin on to me
just keep holdin on, holdin on to me, oh here we go head first, with no regrets
and no rules, we can stay as long as we want
slow dancin' in the darkness
and all I know is I wanna be here with you from now on head first, into the water
and so it hits me, I guess we could breathe all along
one breath, after another
and all i know is i wanna be here with you from now on (x3)
