

# The Secret Of My Success

## FM Knives

Think of it, I, hold the world in the palm of my hand  
Run a comb through my hair, head on out for some new foreign land  
And all this could seem like a dream out the door  
With everyday people, face down on the floor  
I always said, "I could make it and be who I am"  
There's a new look in sight, what a change for the new modern man  
With all this it seems, like I'm dying for more  
The streets are on fire, never seen it before  
It's like the sound of electric guitars  
Worlds collide and hearts will be broken  
Over and over it's the same every day  
How can I say what has never concerned me  
The secret of my success is I'm living 25 hours a day  
It's amazing to me, what a fool will believe to get by  
With a change of your mind, I can live, I can fly  
The harder they come, the harder they fall  
I never say maybe and I go for it all

Just like the sound of electric guitars  
Worlds collide and hearts will be broken  
Over and over it's the same every day  
How can I say what has never concerned me  
The secret of my success is I'm living 25 hours a day  
With nothing to show, just sweat from my soul  
My heart's on the line and I'm dying to go  
Look at us now, gonna make it somehow  
Hold on to me baby, can't hold me down  
Worlds collide and hearts will be broken  
Over and over it's the same every day  
How can I say what has never concerned me  
The secret of my success is I'm living 25 hours a day  
The secret of my success is I'm living 25 hours a day  
25 hours a day
