

Dying For You (ft. Lindsey Stirling and Alex Aris)

Otto Knows

Somebody told me you had given up on your smile
That must mean you've been pretending now for a while
To me you don't have to keep hiding away who you are
Remember how we said together we would go far
Summer nights, side by side
Oh I know you remember how we laughed until we cried(x2)
So when you're down and out from your troubled life
I will be dying for you, dying for you
When all you have is doubt, know that I'm around
I will be dying for you, dying for you You kept on changing your colors to be someone else
But you know some things should never, ever be changed Summer nights, side by side
Oh I know you remember how we laughed until we cried(x2)
So when you're down and out from your troubled life
I will be dying for you, dying for you
When all you have is doubt, know that I'm around
I will be dying for you, dying for you I will be dying for you, dying for you, dying for you
I will be dying for you, dying for you
I will be dying for you
