practice black magic is a solitary curse so my little outbursts all involuntary edge of reality haters dying to
shatter me
but that bullshit dont rattle me with my savage mentality
so i keep my shit rocking instead of shutting shit down and you can hear my shit knocking from like 300 miles

they try tell me calm down but i got nowhere to go i guess im lost in the wilderness fuck the money and hoes
couse i dont do this for dough thats why i keep my shit raw round of applause when they see me breaking
motherfucking jaws drop a bomb on em (you aint gotta like me)

Chorus:

i dont give a shit you aint gotta like me and you can eat a fucking dick
couse motherfucker ima bomb on em tell me if you hear what im saying i hope theese fuckers dont think that im
playing
couse motherfucker ima bomb on em tell me if you hear what im saying i hope theese fuckers dont think that im
playing
couse motherfucker ima bomb on em

understand the reason i ramble like a mad man
so i dont fuck with nobody i just roll by myself its like a shot to your body with every word that you felt see i
was climbing to heaven but i end up in hell
contaminatin this nation every record i sell now im ringing theese bells but they dont like what im saying guess

but i dont need your approval my shit is supposed to be wild the kind of croud grows well when i get up in these
clouds motherfucker (you aint gotta like me)

Chorus:

i dont give a shit you aint gotta like me and you can eat a fucking dick
couse motherfucker ima bomb on em tell me if you hear what im saying i hope theese fuckers dont think that im
playing
couse motherfucker ima bomb on em tell me if you hear what im saying i hope theese fuckers dont think that im
