Monsoon

Fireside

You fell asleep
Just to make me feel bad
Denied me your body
And made me feel deadSince it went wrong
It has never been the same
But everything changes
It's all just a gameThough they say that in time
Though they say that in time
Everything will go right
Everything will go rightToo far away
And time's not on my side
I tried to call you
Still knowing you're outI can't wait
Until I hear your voice againThough they say that in time
Though they say that in time
Everything will go right
Everything will go rightThough they say that in time
Though they say that in time
Everything will go right
Everything will go rightIt's hopelessly black
It's coming back
It's coming backIt's hopelessly black
It's coming back
It's coming backDon't you know
It's with you that I feel the best
The pain's still in my chest
It never restsThough they say that in time
Though they say that in time
Everything will go right
Everything will go rightIt's hopelessly black
It's coming back
It's coming backIt's hopelessly black
It's coming back
It's coming back
It's coming back
