If You Were Mine

Mya

If you were mine I'd treat you right

I would be there for you, always take care of you

I'd give you the world if I was your girl

Baby, I swear I'll always be there

Will you be mine?My dad said, "You can play me for my heart," yeah

'Cause I never thought that I would fall so far

But ever since the first time you caught my eyeWhat I'd give be your wife

You're on my mind

In a matter of time

You'll be mineIf you were mine I'd treat you right

I would be there for you, always take care of you

I'd give you the world if I was your girl

Baby, I swear I'll always be there

Will you be mine?If I could close my eyes and make a wish

If the only thing worth asking for is just one kiss

'Cause I thought about it the since the day you walked in my lifeThere's no way to deny

How I'm feeling inside

'Cause in a matter of time

You'll be mineIf you were mine I'd treat you right

I would be there for you, always take care of you

I'd give you the world if I was your girl

Baby, I swear I'll always be there

Will you be mine?I told myself a thousand times, 'It's destiny for you and me'

'Cause when I close my eyes your face is all I see

I just can't help myself, I want you and baby no one elseIn a matter of time

You'll be mine

I'd give the world

If you were mineIf you were mine I'd treat you right

I would be there for you, always take care of you

I'd give you the world if I was your girl

Baby, I swear I'll always be there

Will you be mine?If you were mine I'd treat you right

I would be there for you, always take care of you

I'd give you the world if I was your girl

Baby, I swear I'll always be there

Will you be mine?
