

On & On (Chilout Mix)

Inna

You take me so high, you take me so high
You take me so high, you take me so high
You take me so high, you take me so high
You take me so high, you take me so highHello, do you miss me? I don't know
My soul, miss you, baby, you don't know
Right now I am dreaming about how we love
We loveI need you on and on and on in my life
I need you on and on and on in my lifeI need you on and on and on in my life
On and on and on in my lifeYou take me higher
(You take me so high, you take me so high)
(You take me so high, you take me so high)
'Cause you're my fire
(You take me so high, you take me so high)
(You take me so high, you take me so high)You take me higher
(You take me so high, you take me so high)
(You take me so high, you take me so high)
'Cause you're my fire
(You take me so high, you take me so high)
(You take me so high, you take me so high)I need you on and on and on in my life
On and on and on in my life
I need you on and on and on in my life
On and on and on in my life
