

# You

## Das Pop

YOU

(Words and Music by Columbia Chaise) Recall the days of love and passion

a school house made of beach and sand

that's where I found reaction to wanting you

I will meet you there... I will meet you there Bless my soul

the day I found you

sunshine shined upon us

there

wind and shores surrounds you

I wanted you I will meet you there

I will meet you there

I will meet you there Something happened that day

I saw you

my whole life changed

darkness stopped fallin

upon me then

now only love remains And I wanted you

stay baby

wanted you

never go away

and I wanted you

take my hand

wanted you

make love in the sand

and I wanted you

again and again

wanted you

baby hold my hand

and I wanted you

kiss and hold you please

wanted you

make love to me I will meet you there

I will meet you there

I will meet you there

I will meet you there
