

Never Said (iTunes Originals Version)

[Liz Phair](#)

(Yeah)I never said nothing
I never said nothing
I never said nothing
I never said nothingI don't know where you heard it
Don't know who's spreadin' it 'round
All I know is I'm clean as a whistle, baby
I didn't utter a soundI never said nothing
I never said nothing
I never said nothing
I never said nothingI don't know what they told you
Don't even care what about
All I know is I'm clean as a whistle, baby
I didn't let the cat outSo don't look at me sideways
Don't even look me straight on
And don't look at my hands in my pockets, baby
I ain't done anything wrongI never said nothing
No, baby, I never said nothing
I never said nothing
I never said nothing
I never said nothing
No, not to anyone
I never said nothing
I never said nothing
