

# Location Is Everything

## Piebald

Drive around forever on an empty tank of gas  
You can see all of Boulder from up here  
I can't forget this even if I wanted to  
Would you rather listen to something  
That starts with a T or an L?  
The T is for Tom Petty, the L is for Led Zeppelin  
Either way we can drive all night  
Just like a runaway rocketship  
I wish I painted flames on the side  
Stuck between one set of lights and another just like a divided sun.
