Shadow Wind

Dotan

chorusIn this city of time
With no time to win
We all got caught by the shadow wind, shadow windThrough the walls of blinds
Running past our skin
We all got caught by the shadow wind, shadow windverse 1Frosting the cold heart
See where it goes
Casting the weak signs
Wrapping its arms round youThe compount of silence
Catching the souls of neonverse
Lost in distance
Fighting this war
Your heart is a weapon
Catching the glow
The sirens keep calling out
Hunting around for storieschorusIn this city of time
With no time to win
We all got caught by the shadow wind, shadow windThrough the walls of blinds
Running past our skin
We all got caught by the shadow wind, shadow wind bridge And we run, we running out of the coldAnd we run, we running out of the cold
And we run, we running out of the cold
And we run, we running out of the coldverse Facing the water
Bodies are cold
Hitting the bottom
Floating across the ocean
We dive in the waves of hope
Drown as the world is floating chorusIn this city of timeWith no time to win
We all got caught by the shadow wind, shadow wind
Through the walls of blinds
Running past our skinWe all got caught by the shadow wind, shadow windbridgeAnd we run, we running out of the cold
And we run, we running out of the cold
And we run, we running out of the cold
And we run, we running out of the cold chorusIn this city of timeWith no time to win
We all got caught by the shadow wind, shadow wind
Through the walls of blinds
Running past our skin
We all got caught by the shadow wind, shadow windbridge
And we run, we running out of the cold

And we run, we running out of the cold
And we run, we running out of the cold
