The Wish

Red.Was.Here

I know now, im searching, im trying
not knowing everything gonna be okay
gonna be okay for you
you seen it, believe it
i don't know what she said
everything gonna be okay
gonna be okay for you
i know not everything but nothing
and i can't seem to stay
now its stupid 'coz i know that you are going away
i hear you're fine, your okay in your mind
but everything gonna be okay
gonna be okay for youso nothing, nothings gonna, gonna go make me stay
now you are, you are going, going away
so
now you are going away
well it hurts and it stings and you never you can win
well i know and i try and i still lost my mind
so im going, im going, im going away
im dying, im dying, im dying todayi know now, you seen it
i lost my guard again
but everything gonna be okay
gunna be okay for you
i see you, you're fading
i guess that's nice to know
but everything gonna be okay
gunna be okay for you
i know not everything but nothing
and i can't seem to stay
now its stupid 'coz i know that you are going away
hear you're fine, your okay in your mind
but everything gonna be okay
gonna be okay for youso nothing, nothings gonna, gonna go make me stay
now you are, you are going, going away
so
now you are going away
well it hurts and it stings and you never you can win
well i know and i try and i still lost my mind
so im going, im dying, im dying away

im dying, im dying, im dying todaywell it hurts and it stings and you never you can win
well i know and i try and i still lost your mind
so im going, im dying, im dying today
im dying, im dying, im dying awayim dying today im dying today
im dying
im dying
im dying today
