

# Small Town Big Time

## Blake Shelton

Yea, Hollywood Boulevard

Lookin down, seeing stars

90210, Rodeo is Rodeo

Glad I hit it, glad I did it and I'd do it again

Yea, and hang with my friends With them red Maserati's and them tuned up bodies

And everybody gonna be the next somebody

Yea, this place is a trip

Hey but meanwhile back in the sticks Somebody's havin a small town big time night

Somebody's rockin the main street with red tail lights

Somebody's crankin it up or fallin in love

Or keepin the buzz sippin on a little moonlight Yea, they know how to rock

Out in the boondocks

Cause believe me I've been there

Somebody's havin a small town big time night, somewhere Yea, two lane town squares

Cotton queens, county fairs

With a water tank

Got 100 girls' names under the paint Glad I hit it, glad I did it and I'd do it again

Yea, I miss my friends With them pick'em up trucks and them dirt road ruts

And all them country girls get to struttin their stuff

East, west, north or south

Yea you better believe that right about now Somebody's havin a small town big time night

Somebody's rockin the main street with red tail lights

Somebody's crankin it up or fallin in love

Or lightin it up with a KC spotlight Yea, they all got the swerve

Down back in their hometown

I wish that I was there

Somebody's having a small town big time night, somewhere Somebody's havin a small town big time night

Somebody's rockin the main street with red tail lights

Somebody's crankin it up or fallin in love

And twistin it up and dodging them blue lights Yea, they know how to kick it

Way out past the limits

Cause baby I've been there

Somebody's havin a small town big time night, somewhere Yea, somebody's havin a small town big time night,  
somewhere

I wish that I was there

Yea, I wish that I was there
