It's So Simple

Saosin

I never thought you would lose yourself
The hardest part was falling down again
I'm a fool to watch you walk away
Are you bothered by the choice you made?
When we fall to the ground
Slowly we're safe and sound
It's so simple to be afraid
It's so simple when you know who you are
It's so simple to be afraid
It's so simple when you know who you are
I caught you lying to yourself
Now everything is spinning 'round and around
Well, I'm a fool to watch but never say
Are you bothered by the choice you made?
When we fall to the ground
Slowly we're safe and sound
It's so simple to be afraid
It's so simple when you know who you are
It's so simple to be afraid
It's so simple when you know who you are
But maybe we were wrong
When will you know?
That you can feel belonged
I think you fell in deeper than you imagined
It's so simple to be afraid
It's so simple when you know who you are
It's so simple to be afraid
It's so simple when you know who you are
