

# All We Need (feat. Shy Girls)

## ODESZA

This is not a tactic to expose you babe  
I'm just trying to see you in your moment baby  
No this is not a tactic to expose you babe  
I'm just, I'm just trying to see you I could be down on it  
You could be all we need  
I could be down on it  
You could be all we need I was thinking you and I could  
Skip the part where we small talk each other  
Turn the beat up, turn it real loud  
Turn the beat up, turn it real loud Hold me to my word this time  
I'm gonna take another ride  
Call me on my bitter side  
Call me on my cell at night  
Take it to the limit babe  
Don't ask me to commit a thing  
If no one gets hurt, what was it worth  
What was it worth, what was it worth I could be down on it  
You could be all we need  
I could be down on it  
You could be all we need Just wanna fast forward  
Just wanna fast forward  
Just give me the damn controller Just wanna fast forward
