Unified Theory

The Cobalt Season

Will I know you when I see you?
Look for you in the faces where I go
Beneath the complexity, is there simplicity?
Or is it something I can?t know?

?Cause I keep lookin? ?round the corner
Is this the way? Is it here or there?
Is there anyone out there who cares to see their complicity
And how this is all for us to bear?

In Everything
What?s it mean?
In this in between?

And I?m not askin? for your charity
Hell, I don?t know what I?m askin? for
We could attempt to find some clarity between you and me
But I feel I need something more

?cause I spent a lifetime all for this one thing
Careful not to leave a stone unturned
Still I fear I might have turned you off and all is lost
And now the bridge is burned

In everything
What?s it mean?
In this in between
What can I bring?
In everything
Is truth unseen?
And is in between
Is everything?
