

Super Villain (Promo Only Clean Edit)

Powerman 5000

Ah, hey You're dressin' all in black from your front to your back
And all your evil ways
They seem to go on for days and as a matter of fact
You got one more night before ya Smash it up, burn it down tearing up the underground
You wanna live like a super villain
Back in the line up before your time's up
You wanna live like a super villain There's nowhere to go
There's nowhere to go No one is savin' this town
Fuck all those pricks and those clowns
I know you'd rather abuse, condemn or slightly confuse
Kick 'em all when they're down and then just for fun you're gonna Smash it up, burn it down tearing up the
underground
You wanna live like a super villain
Back in the line up before your time's up
You wanna live like a super villain There's nowhere to go
There's nowhere to go
There's nowhere to go There's nowhere to go when you're on your own
You don't care about what's wrong or what is right Alright, alright
You've been knockin' down these doors
You've been filling up this room
You're been runnin' round the place
Like your name was Dr. Doom You're a killer of culture
A vulture of style
And it won't be that long
Before you end up on trial We're gonna smash it up, burn it down tearing up the underground
You wanna live like a super villain
Back in the line up before your time's up
You wanna live like a super villain Like a super villain
Like a super villain There's nowhere to go
Like a super villain
There's nowhere to go
Like a super villain
