Into The Blue

cainÂ´s offering

Lying in the pool water, looking at the sky again
Drifting while the days go by, floating in circles
[Chorus]I see you up in the blue
I send a thought to you from the prism of my mind
Out of my head and into the blue
My baby blue, my baby blue
Flying in the long, wide airplane, looking at the world below
Watching all the clouds go by, flying in circles

[Chorus]I see you out in the blue
I send a thought to you from the prism of my mind
Out of my head and into the blue
My baby blue, my baby blue
My baby blue, my baby blue
Out of my head and into the blue
My baby blue, my baby blue
My baby blue, my baby blue
