Start to Fly

Plus One

You've had your taste of all that's sweet
Now you're through and what does it mean
You've sought the truth, found a lie
You've given up but it doesn't make it rightYou want to go, I know you wanna leave
Ya' gotta go, farther than you see[chorus:]
If you just look past your scars
You will see it's not that far
Don't close your mind
Let God inside
Begin to breathe, start to fly
Start to flyWake from your sleep,
Start your dream
It's okay to believe what you don't see
Give it away, your heart
Won't break
This is a chance you're gonna have to takeYou want to go, I know you wanna leave
Ya' gotta go, farther than you see[repeat chorus]Just close your eyes, hold on tight
You don't have to be afraid
He is with you all the time
You'll be free, full of peace
Everything that you need,
It is right there can't you see[breakdown][repeat chorus]
