

Rock a Bye Bye

Extreme

If you could only hear the silent screams
When you wake them up from their dreams
Nothing is heard
Not even a, even a, even a wordRock a bye baby
On the tree top
When the bough breaks
The cradle will rockRock, rock, rock a bye baby
Rock, rock, rock bye byeAnd if they had any choice at all
You still can't hear those voices that call
And when the bough breaks
The cradle will, cradle will, cradle will fallRock a bye baby
On the tree top
When the bough breaks
The cradle will rockRock, rock, rock a bye baby
Rock, rock, rock
