

Windchaser

Christon Gray

I wanted to make love
She wanted to break up
I was ready to try again
She wanted to be friends
Well, I guess diamonds don't last forever
But I thought we'd always be together baby
Now, I feel like I'm walking backwards
And everybody looking at me like I'm crazy
Forgive me nots turned into love me nots
Love me nots tied us together tho
It's ever so Cupid how we fell for the weather tho
Autumn, who you wanna see so bad
I'm like call em
You leave me no option
You distorted the portrait
You've been more than important
Blazing the trail was pointless
Like no porter in portlet
It's been more of a Jordan shrug for me
But nowadays ain't much more than a hug for me
Enigma why I ain't cried yet
She be on some Wyclef
Gone till November and then some
Gone till November and then some
Gone till November and
I don't wanna start all over
Took me too long to grow up
I feel like I don't know even her
Say what you got, cold blood
Now, I can see clear
Hear them whispering in my ear
That's just the way it is
We exchange vows from I do to adieu like we exchange vowels
Sin nature, made me a windchaser
Misunderstandings till we only strangers, and we hold these papers
Invisible document of entitlement
When we only vapors, so damaged
And my soul panics a romantic gatsby slow dancing at fast speed
Lately, I've been in deep over my head
No, I said Hell was gon' have to freeze over
It's like Heaven seems colder

This ain't Heaven, I mean
Now, I know why we can't make love
Cause love is what made us
And I'm still ready to try again
I start over today
Now, I know why we can't make love
Cause love is what made us
And I'm still ready to try again
