

Don't Be Shy

Burnham

It wasn't that long ago,
That I laid my eyes on you
My heart skipped a beat or two
Oh oh oh
Now you're just catching on
What you're feeling is love
Guess this means I'm the one
Oh oh oh Oh, it's okay if you're afraid
That's natural
But first off, baby, let me say Don't be shy
'Cause I feel what you're feeling too so
It's alright
I'll make the first move and
Pretty soon you'll realize
Those are all just butterflies
So, don't be shy
Just put your hands in mine Oh oooh baby don't be shy
Oh oooh no baby don't be I know you're feeling so
Nervous and uncomfortable
It's okay just let it go
Oh oh oh
'Cause there's a voice that's telling you
"Get up and try something new"
That's the one that you should listen to
Oh oh oh Oh, it's okay if you're afraid
That's natural
But first off, baby, let me say
I'm here for you so Don't be shy
'Cause I feel what you're feeling too so
It's alright
I'll make the first move and
Pretty soon you'll realize
Those are all just butterflies
So, don't be shy
Just put your hands in mine You can't use logic to justify
What's in your soul
Oh oh oooh
There are some things that you just can't fight
So let love fly

Yeah Don't be shy
'Cause I feel what you're feeling too so
It's alright
I'll make the first move and
Pretty soon you'll realize
Those are all just butterflies
So, don't be shy
Just put your hands in mine Don't be shy
'Cause I feel what you're feeling too so
It's alright
I'll make the first move and
Pretty soon you'll realize
Those are all just butterflies
So, don't be shy
Just put your hands in mine
Don't be shy
Baby, don't be shy
Don't be shy
Baby, don't be shy
