Don't Go Away

Ace Of Base

One step hesitation
One step into the night
Don't mind the weather
It's raining in my heart tonight
Much more to living
Two wrongs don't make a right
You're gonna regret it
When you're looking back
On your life
Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be
But don't go away
Some dream of fortune
Others dream of fame
Seconds after leavin'
Life will never be the same
Fell for temptation
(Fell for temptation)
It didn't mean a thing
We'll last forever
(Forever)
If you turn around
(Turn around)
Once again
Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be
But don't go away
Wanna be more than a picture
Hangin' on the wall
Something to remind me
How it all went wrong?
Do you wanna be more than a number
Forgotten in a book?

Holding something special
Take another look
You're gonna regret it
When you're looking back
On your life
Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you wanna be
But don't go away
Take a look, take a look
Take another look on your way
Take a look, take a look
Take another look on your way
Please don't go
(Take a look, take a look)
Take another look on your way
Please don't go
(Take a look, take a look)
Take another look on your way
Please don't go
(Take a look, take a look)
Take another look on your way
Please don't go
(Take a look, take a look)
