Black Sheep Five, this is Red Dog One, come back

[S.G.] This is Black Sheep, copy

[S.G.] Well I'm in zone three but it's lookin pretty dry out here

Affirmative Black Sheep Five, that's a green light

You can set it when you're ready

[S.G.] Ten-four Red Dog, it's on[Shock G]

Aiyyo question:

what does an Afro-rockin next-droppin Westside type

Yo what the deal Shock? (Love yo)

You know me, keepin they heels cocked

Still round cause I'm down, 400 lbs of steel cock

You feel hot I warn you, what? I never call you slut

or diss you that's why my initials is on your butt

I get it up when you need it, promise I'll never beat it

Satisfaction guaranteed it, twice as hard if you eat it

Whateva, what you got, let's bounce, it's twelve o'clock

Let's blaze the thai, jump in the ride, find a live inside

Stressed all week, scheduled sheets, rhymes and beats

Hit the streets find a club and then bag the freaks

Whateva throw the keys to valet, let's make our way

to the club entrance (Yo there go Pun with like ten chicks!)

The line's sexy, but we gon' get in this bitch

Let me light a clip, look for the shorties with the nicest hips[Whateva]

We had to bend a piece like the Max casual slacks

Ordered the Cognac, laid back, planned our attack

Straight off the back I'd approach, 'fore we took off our coats

She got close, threw me the signal like a third base coach[S] Yo Whateva what's the deal?

[W] Yo ain't no time to speak

[S] Where you at?

[W] What you think, about to find that freakThe night's just beginning, strobe lights and nice women

Get in where you fit in, it's just The Mission[Big Pun]

Physically blubber bound, but I crush a hundred rounds

Eat every bit of you my tongue is Digital Underground

Fuck around and catch the tongue twister

Big Pun'll make you come til you cough up a lung sister

I ain't playin I be layin the laws sprayin your jaw
