

Well of Lies

[Flyleaf](#)

Woah oh Walking in the dark
Narrow hallway's all I see
The static in my heart is bringing out the worst in me All I need is what you've given me
All I need is what you've given me Don't let me slide
Slip down this well of lies
It's dark inside, oh
Inside this well of lies I look up to the light and feel the sky so far from me I need a steady heart to even out the
frequency All I need is what you've given me
All I need is what you've given me Don't let me slide
Slip down this well of lies
It's dark inside, oh
Inside this well of lies Walking in the dark
Narrow hallway's all I see
Yeah
The static in my heart is bringing out the worst in me Don't let me slide
Slip down this well of lies
It's dark inside, oh
Inside this well of lies Don't let me slide
Slip down this well of lies
It's dark inside
Come set me free tonight
