

Spend Some Time

Total

Baby, can we spend some time but if only for one night
I wanna be together, I wanna be with you
Baby, can we spend some time but if only for one night
I wanna be together, I wanna be with you All of my days and nights
I spend dreaming of us together
I never realized how much of my time
Goes to thinking of you, you're all that's on my mind Baby, can we spend some time but if only for one night
I wanna be together, I wanna be with you I wanna talk to you, about the things that we can do
Is that alright with you?
Can we work this out, I need to be sure
That you understand what love is all about Baby, can we spend some time but if only for one night
I wanna be together, I wanna be with you All my days, and all my nights
I wanna be with you tonight
Baby can we spend some time
I wanna be with you All my days, and all my nights
I wanna be with you tonight
Baby can we spend some time
I wanna be with you Baby, can we spend some time but if only for one night
I wanna be together, I wanna be with you All my days, and all my nights
I wanna be with you tonight
Baby can we spend some time
I wanna be with you [Unverified]
