A Truly Happy Ending

Junior Boys

Left alone, I'll destroy almost everything Padded gloves don't provide sensitivity Every little moment dealt

Stops shouting when it crashes downOh, what could be Some simple chance for a bit of empathy, yeahNever seen a truly happy ending

Make believe that you know

All the things that you've been thinking

Never seen, never been in a truly happy ending

Gets so close but it always just falls apartNow I found things won't work out so well for me

Good luck lies no longer than a smile

Any piece of chance I found

Got swallowed up in years of doubtThat still hangs off me

I got it bad so stay back or else you'll catch itNever seen a truly happy ending

Make believe that you know

All the things that you've been thinking

Never seen, never been in a truly happy ending

Gets so close but it always just falls apartI can't be patient all the time

Come and put your hopes up next to mineNever seen a truly happy ending

Make believe that you know

All the things that you've been thinking

Never seen, never been in a truly happy ending

Gets so close but it always just falls apartNever seen a truly happy ending

Make believe that you know

All the things that you've been thinking

Never seen, never been in a truly happy ending

Gets so close but it always just falls apart
