

# Touch Me (Like U Touchin Yourself) (Feat. Se7en)

Chris Brown

I don't know if it's your scent or your kiss  
But I girl I love it  
And time after time,  
You give me one of the greatest gifts  
I want you to I want you to love me  
Like you never loved nobody else  
And I want you to touch me  
Like when your touching yourself So baby come over (I'm on my way girl)  
If you take your time  
You can love me right  
(Gonna love it, uh-huh, set the time girl)  
If you want me to slow it down  
(I do, do you, I will, will you, I will)  
Bite into the pillow, try not to make a sound Girl, it's okay, cause I want you to feel me, yeah  
Cause your daddy's girl, I'm a show you how to love,  
Show you how to love me girl So lay down right there  
So you can hold my head  
While I'm kissing on your thighs  
Girl I just need it one more time I want you to love me  
Like you never loved nobody else (can you do me girl)  
And I want you to touch me  
Like when your touching yourself And as I look into your eyes  
Your body screams for my love  
No fear, just me,  
And as you feel me inside  
My passion fits like a glove  
No more fear, just you and me I want you to love me  
Like you never loved nobody else  
And I want you to touch me  
Like when your touching yourself
