

# The Best

[Lmnt](#)

You tell me, you need me  
And you'll never leave me  
I want to believe that it's true 'Cause if one day, I woke up  
And found that we'd broke up  
No one can take the place where there was you I could never fall in love again, there's no way I could pretend  
Now that I've had the best  
I searched forever but it never could be better than this  
How could my heart forget I'd never be the same  
And baby, your love's to blame  
How could I settle for less  
Now that I've had the best I know sure as I breathe  
That your all that I need  
To love you is what I'm living for 'Cause you love me so deeply  
So strong and completely  
There's no one who could ever love me more I could never fall in love again, there's no way I could pretend  
Now that I've had the best  
I searched forever but it never could be better than this  
How could my heart forget I'd never be the same  
And baby, your love's to blame  
How could I settle for less  
Now that I've had the best No one else can measure up to how you give me all your love  
The best  
If I loved ya forever it would never be enough I could never fall in love again, there's no way I could pretend  
Now that I've had the best  
I've searched forever but it never could be better than this  
How could my heart forget I'd never be the same  
And baby, your love's to blame  
How could I settle for less  
Now that I've had the best Baby, your the best
