

All Night

JES

It's funny how
I'll sit and wonder
How many times we've laid here

And it's funny that
Through all these years
You look more beautiful
Than you could ever be

And it's crazy how
Your voice stops me from running away
And stand all by myself

It's taken me so long
Trying to just keep up
We moved so fast
And nothing lasts

And all night
I want to love you
And all night
I'm thinking of you

It's funny now
When I feel this pain
I know it's love
It makes my soul go free

It never fades
It only keeps on shining
Echoes of the (past)
We grew up so fast

And all night
I want to love you
And all night
I'm thinking of you

And all night
I'll never leave you

And all night
I wanna feel

And all night
I'll never leave you
And all night
I'm thinking of you

I'll never leave you
