

Incised Before I've Ceased

Hypocrisy

I also want to add a few corrections:
I'm wide awake but I feel ??
Take my blood and wait for me to die.
Cut me open, and slicing my flesh
Look at the eyes that pierce the holes in my spine.They probed my own thoughts beneath my head
Drink my blood, the heart will stop the beat.
Where am I, what do they want from me?
Burn the blades when I'm done.Take me away from this Earth. [could also be Hell]
No matter how much I'm screaming
They wont stop cutting me
I don't need this surgery[Chorus]
I don't wanna live
I don't wanna be
Incised before I've ceased.
I don't wanna feel.
Pull the plug on me.
Incised before I've ceased.They probed beyond, inside, the end of me
Me up cos I'm dead
Turn off the life support.
You don't need me no more.
I'm stranded?Don't you dare put me back
I'm not your human surgical experiment.
Just turn me off why can't you stop
Your work is done ??????????Take me away from this Earth.
I don't need your surgery.[Chorus: x2]I don't wanna be incised before I've ceased.
I don't wanna be incised before I've ceased.
