

Not This Time

Prevenge

You know I put my faith in you
(I gave it all to you)

There's nothing left for me to prove

(There's nothing left for me) And I won't be there when you fall

And I won't care at all

Not this time, not this time

Not this time, not this time

Where you stumble's where you fall

And I won't care at all

Not this time, not this time

Not this time, not this time So I push myself away

(I draw away from you)

Sadness left here in my veins

(Sadness left for me) And I won't be there when you fall

And I won't care at all

Not this time, not this time

Not this time, not this time

Where you stumble's where you fall

And I won't care at all

Not this time, not this time

Not this time, not this time And I bled for you

(I bled for you)

This heart has tried

(This heart has tried)

The damage you do is what you never realize And I won't be there when you fall

And I won't care at all

Not this time, not this time

Not this time, not this time

Where you stumble's where you fall

And I won't care at all

Not this time, not this time

Not this time, not this time And I won't be there when you fall

And I won't care at all

Not this time, not this time

Not this time, not this time

Where you stumble's where you fall

And I won't care at all

Not this time, not this time

Not this time, not this time
