

# We're Not Alone Anymore

## Kansas

I got down on myself looked like I was falling off the shelf  
It was the wrong direction  
I got way behind searching inside everybody trying to find  
My own reflection But I got something to say so get out of my way  
'Cause I'm not all alone anymore  
Better sound the alarm, stand your ground, raise your arm  
'Cause you're not all alone anymore I got out of control, I figured there was a lock on rock and roll  
And I lost the combination  
But you better beware, I'm used and abused, I got nothing to lose  
Yeah, but I'm back from my vacation I got something to say so get out of my way  
'Cause I'm not all alone anymore  
Better sound the alarm, stand your ground, raise your arm  
'Cause you're not all alone anymore Stand up, we're not alone anymore, stand up  
Look up, we're not alone not alone, look up I got something to say so get out of my way  
'Cause I'm not all alone anymore  
Better sound the alarm, stand your ground, raise your arm  
'Cause you're not all alone anymore
