

Some Other Place

Whisperado

On the very day that I left home she
Saw me and she flashed her pretty smile
I was flattered, I was flustered, I
Forgot about being homesick for a while
Then she handed me a book called Atlas Shrugged
And said she had to make a call
Now I'm coming out of some place and I'm
Going to some other place, that's all.

Well excuse me Madam, if I interrupted you
I sure do apologize
You remind me of a girl I used to go with
And it caught me by surprise
In those days, the world was scary
Infinite but now it's kind of small
And Iâ€™m coming out of some place and I'm
Going to some other place, that's all.

With a smile and pitchfork you can
Sing along with Atlas when he shrugs
For a minute there I lost the tune but
Thatâ€™s â€™cause I forgot to take my drugs
Go ahead and ask that redhead out
You know sheâ€™s only down the hall
And Iâ€™m coming out of some place and I'm
Going to some other place, Iâ€™m
Coming out of some place and I'm
Going to some other place, weâ€™re all
Coming out of some place and weâ€™re
Going to some other place, thatâ€™s all.
