

Just Believe

Gordon Mote

Have you ever wondered what it must have been like to be Noah
Building a boat in the desert
Long before it ever rainedWell can you imagine how it must have felt to be walking in circles
With Jericho there before you
With walls standing there in the wayHow do ordinary people do extraordinary things - Just believeJust believe -
God will make a way
Believe - then take a step of faith
To see - To see the Lord do what looks like an impossibility
All you gotta do is just believe
Imagine being stuck in a boat in stormy weather like Peter
Stepping out on the water
No matter about the wind 'n waves
Or what it must have been like to be Mary and Martha
Standing at the grave of their brother
While the stone was rolled awayMiracles still happen
For folks like you and me - Just believeJust believe - God will make a way
Believe - then take a step of faith
To see - To see the Lord do what looks like an impossibility
All you gotta do is just believeJust believe, just believeThere is nothing God can't do
Nothing he wouldn't do for you
So pray and tell him everything you need
Just believe - You know God will make a way
Just believe - You gotta take a step of faith
To see - to see the lord do what looks like an impossibility
All you gotta do is just believeJust believe - God will make a way
Believe - Then take a step of faith
Too see - to see the Lord do what looks like an impossibility
All you gotta do . all you gotta do
Just believe
