

Little Hank

Riley Green

I was raised in the bible belt strictly by the Book
mom and daddy kept a real close eye on every step i took.
i was told right from wrong in the eyes of society.
one day i sat daddy down and said
you know it just seems to me
that all these things we look down
hell to me just ain't all wrong.

whats wrong with a little hank
whats wrong with a couple drinks
whats wrong with goin mud ridin in my truck
just as long as we dont get stuck
whats wrong with a long night
whats wrong with a bar fight
whats wrong with skipin class
even if its just to catch a bass
whats wrong with drivin fast if i buckle up
whats wrong with talkin trash if i knuckle up
whats wrong with causin a little bit of ruckus
if i make it to sunday service.
its the way i wanna live my life and my country bloodline's to thank.
whats wrong with a little hank

i said daddy cant you remember being my age
he said let me tell you son, seems like just yesterday
that your grandpa set me down and tried his best to straighten me out.
he said let me tell you son ill tell you what life is all about.
don't tell ya momma but its alright to have a little fun.
i remember back in 65 and all the crazy things i'd done.

theres nothin wrong with a little hank.
theres nothin wrong with a couple drinks.
theres nothing wrong with spinning tires.
theres nothin wrong with lightin bonfires.
theres nothin wrong with a little smoke.
theres nothin wrong with country folk.
theres nothin wrong with getting stoned every now and then
as long as you know how to say when.
theres nothin wrong with sitting around with ya buddies

sippin on something in a mason jar.
theres nothin wrong with getting cuddles up with a pretty young
thing as long as you don't go to far

thats the way you oughta live your life boy
and your country bloodline's to thank.
theres nothin wrong with a little hank.

who makes the rules right or wrong?
what if i wanna live my life like an old Bocephus song

theres nothin wrong with a little hank
theres nothin wrong with a couple drinks
theres nothin wrong with causin a little bit of ruckus if you make it to sunday service

its the way i wanna live my life and my country bloodline's to thank
theres nothin wrong with a little hank
theres nothin wrong with a little hank
