Granite Statue

Salad

Sitting in a garden
With a face like a granite statue
I am winter solstice
Waiting like a granite statueJust like a granite statue
I will come when the weather's fine
Just like a granite statue
I wanna know what's on your mindEvery single time that I come here
I can't tell you what I feel
I am so polite to you and courteous
I know that it's not realI long to grab a hold of you
And take you in my arms tonight
But when I feel I'm going to
My courage flies away and I turn coldJust like a granite statue
I will come when the weather's fine
Just like a granite statue
I wanna know what's on your mind
Just like a granite statue
Statue, is that you, statue?Just like a granite statue
I will come when the weather's fine
Just like a granite statue
I wanna know what's on your mindJust like a granite statue
I will come when the weather's fine
But I'm a granite statue
And I know you'll not ever be mineJust like a granite statue
Statue, is that you, statue?
Statue, is that you, statue?
Statue, is that you, statue?
Statue
