

# Granite Statue

## Salad

Sitting in a garden  
With a face like a granite statue  
I am winter solstice  
Waiting like a granite statueJust like a granite statue  
I will come when the weather's fine  
Just like a granite statue  
I wanna know what's on your mindEvery single time that I come here  
I can't tell you what I feel  
I am so polite to you and courteous  
I know that it's not realI long to grab a hold of you  
And take you in my arms tonight  
But when I feel I'm going to  
My courage flies away and I turn coldJust like a granite statue  
I will come when the weather's fine  
Just like a granite statue  
I wanna know what's on your mind  
Just like a granite statue  
Statue, is that you, statue?Just like a granite statue  
I will come when the weather's fine  
Just like a granite statue  
I wanna know what's on your mindJust like a granite statue  
I will come when the weather's fine  
But I'm a granite statue  
And I know you'll not ever be mineJust like a granite statue  
Statue, is that you, statue?  
Statue, is that you, statue?  
Statue, is that you, statue?  
Statue
