

Stallions of the Highway (1999 Remaster)

Saxon

Friday night, I feel all right
I get into my leathers
And I get out on my bike There's thunder in my ears
It's blasting down
Kickin' up brick
I don't give a shit
I got the wind in my hair
You know I don't even care
Stallions of the highway Switchblade's gleamin'
Engine screamin'
I'm laughin' at fate
I'm living to hate
My knees are showing red
I'm ridin' with the dead
Get out of my way
I'm a stallion of the highway I got the wind in my hair
I don't even care
I broke out of my shell
I'm on a daydream from hell
Don't shed no tears
I been here fifteen years Friday night, I feel all right
I get into my leathers
And I get out on my bike My knees are showing red
I'm ridin' with the dead
Get out of my way
I got the wind in my hair
I don't even care
Stallions of the highway
Of the highway
