Blue Bird

Sarah White

As I swim mermaids dance with me
As I drown they romance with me
They sing sweet little harmonies
Louder and louder until I can't breathHey blue bird on my shoulder
Can you carry me over?I talked to blue bird, she said why walk when you can fly?
She told me, baby life tastes better when you're high
I said hey blue bird can you take me for a ride
Leave me on a cloud, ill live with blue birds in the skyAs I walk I can feel the heat
As it burns I can smell the sweet
Piece by piece I am yours to feast
All this pain is seducing meHey blue bird on my shoulder
Can you carry me over?I talked to blue bird, she said why walk when you can fly?
She told me, baby life tastes better when you're high
I said hey blue bird can you take me for a ride
Leave me on a cloud, ill live with blue birds in the sky
