Struggle

Face to Face

There was a hint of danger, they told him it's okay
There was a chance of failure, they told him it's alright
A false security driven by a weakened state of mind
It's calling and callingHe had a big decision, they told him it's okay
Bound by his inhibitions, they told him it's alright
Time for reality, time to gain control of his own life
It's calling and callingDo you know what is wrong? Try to keep it in line
You can't go back, there must be somethingHe tried, once was not enough
They told him it's alright
He tried, wasn't good enough
That doesn't make it right
