

# Struggle

## Face to Face

There was a hint of danger, they told him it's okay  
There was a chance of failure, they told him it's alright  
A false security driven by a weakened state of mind  
It's calling and callingHe had a big decision, they told him it's okay  
Bound by his inhibitions, they told him it's alright  
Time for reality, time to gain control of his own life  
It's calling and callingDo you know what is wrong? Try to keep it in line  
You can't go back, there must be somethingHe tried, once was not enough  
They told him it's alright  
He tried, wasn't good enough  
That doesn't make it right
