

Alien

Kicking Harold

Freezing on the dark side
Like a space age breakdown
Floating in a vacuum
Between my own ears I'm a sorry creature
Dying to make contact
All I need is someone
That listens to me Is there someone else?
Is there someone else?
Is there someone else
As lonely as me? Are you shipwrecked like me?
Drifting by your planet
Where the cool ones gather
Everyone's a captain
And girls are dark green Is there someone else?
Is there someone else?
Is there someone else
As lonely as me?
Are you shipwrecked like me? I am in a universe
Invisible to all I see
Maybe some day
I will find a perfect world that lets me be me Is there someone else?
Is there someone else?
Is there someone else
As lonely as me?
Are you shipwrecked like me? Are you shipwrecked like me? I am in a universe
Invisible to all I see
Maybe some day
I will find a perfect world that lets me be me Is there someone else?
Is there someone else?
Is there someone else
As lonely as me? Are you shipwrecked like me?
