

# Blood for Blood

## DestrÃ¶yer 666

One, two, three, four, go, goOh, I bite the hand  
'Cause this hand feeds off me  
Devoid of emotion it lives to cheat  
Ignorance is bliss and respect I gave you  
Friend you did claim this  
Too bad you can't speak the truthGive respect  
'Cause the rule is blood for bloodBeatings are what you'll inherit this time  
Fist bait, your new name your pain is my shrine  
Pulverize and break determination  
Pleasure I negate  
Your pain brings me salvationGive respect  
'Cause the rule is blood for bloodOh, I was born of tension  
Anger came from frustration  
I can't back down from aggression  
Some hard knocks taught me this lesson, yeahGive respect  
'Cause the rule is blood for bloodGive respect  
'Cause the rule is blood for blood, yeah oh
