

# Part of the World

## Turin Brakes

My feet touch down  
In a border town  
No one knows me here  
My long distance fears  
Have long dissapeared  
Only a clear horizonBorn optimistic  
The old familiar feeling  
Like a stone, overgrown  
I am, part of the world  
Feel the sun, feel the rain  
I am, part of the worldAmerica a miracle  
Those roads saved my soul  
They kept my mouth talking  
They kept my spirit  
Walking  
No one could stop this nowBorn optimistic  
The old familiar feeling  
Like a stone, overgrown  
I am, part of the world  
Feel the sun, feel the rain  
I am, part of the world
