

Great Expectations

Eric Carmen

Seems everyday, I'm gettin' harder pressed
To find a reason to shave
Watchin' the hours just slippin' away
No motivation to get out of bed
And carry on the charade
Caught in a dream that's goin' astray
Oh, all those great expectations
Seems they never work out, never work out
The way that I plan
All those great expectations
Why they never work out, never work out
I can't understand
And just when I think that things are goin' right
I get a call from L.A.
Sorry to say, we're changin' your song
I try to reason, but I can't get through
They're gonna do it their way
What can I say, they've never been wrong
Oh, all those great expectations
Seems they never work out, never work out
The way that I plan
All those great expectations
Why they never work out, never work out
I can't understand
Life is just a game of chance
I think somebody said so
Sometimes you get a hula hoop, sometimes you get an Edsel
Oh, all those great expectations
Seems they never work out, never work out
The way that I plan
All those great expectations
Why they never work out, never work out
I can't understand
