

Gee, I'm Looking Forward to the Future

Up With People

I thought of yesterday and how far we've come so soon

But just think about today we're almost landing on the moon

Then upon a star I threw a wish afar that the whole world could be better than before

we stood there in the light of a magic scented night and we could feel my spirits soar

Gee I'm looking forward to the future for in the distance I can see a great new day is dawning in the 21st century

yes I'm looking forward to the future is it but a dream or can it be reality?

Like the old Missouri we'll roll along our dream now is bold and strong

Gee I'm looking forward to the future for in the distance I can see a great new day is dawning in the 21st century

Yes I'm looking forward to the future is it but a dream or can it be reality?

Like the old Missouri we'll roll along our dream now is bold and strong

and we'll build now until it's fulfilled and the world will be thrilled with the song

Gee I'm looking forward to the future for in the distance I can see a great new day is dawning in the 21st century

Yes I'm looking forward to the future now I know it's not a dream, we'll make it a reality

Yes I'm looking forward to the future I know it's not a dream we'll make it a reality

(repeat 2x)

I know it's not a dream we'll make it a reality
